The Forest Service Pacific Southwest Region received a small planning grant from the Federal Transit Administration under the Paul S. Sarbanes Transit in Parks (TRIP) Program to conduct Phase 1 of a state-wide alternative transit planning project connecting underserved neighborhoods with federal public lands. Planning meetings to date have focused on establishing the project's overall conceptual design, methodology, and determining filters to identify target neighborhoods, destinations, and ATS corridors.

In this May 30th meeting, we will focus on nominating target neighborhoods using maps of areas with the most need in central California. Your participation is requested at this meeting to discuss and develop the neighborhood selection criteria. We hope to see you all there, however, if you cannot attend in person, the meeting will be made available via webinar. Information for connecting via Microsoft Live Meeting is included below.
